## Tobacco Tax Increases Hurt Businesses

### Lawmakers in Kentucky are trying to raid your wallet.

The state is considering:

- \$1-per-pack cigarette tax increase
- \$1-per-can moist snuff tax increase
- \$1.19 tax on vapor products

**Make your voice heard.** Your legislators need to know that this tax will hurt your business.

### Tell state legislators:

- You don't support legislators who support tobacco tax increases.
- Increased tobacco taxes hurt your business and may even lead to lost profits, lost jobs or store closures.
- Remind them that tobacco tax increases are still tax increases and will have a negative impact on your store.
